would weigh in orthepriority order of wherethey put the projects. Mr. Sata replied that the intent is actually to approve the tool, assessments, and all the things that go into making that dol; the board is not approving the specific projects that will launch first as those are going to come back with a project initiation form so that they can be approved and the board can have the appropriate dialogue on an appliance. Ms. Ramosadded that in approving the tool, the assessments are very specific, so
