Recommendation: Approve State Board of Education Waiver Request for 2021-22 Instructional Time Penalty for Sacramento City Unified School District, Bowling Green Charter School, New Joseph Bonnheim Community Charter School, George Washington Carver School of Arts and Science, and New Technology High School

Background/Rationale : For the 2021-22 school year, the Sacramento City Unified School District (SCUSD) received an instructional time penalty for a shortage of instructional days and instructional minutes due to the workforce strike.

Education Code section 46206 allows the State Board of Education (SBE) to waive the fiscal penalties associated with instructional day and/or minute shortages provided that a school district complies with specific conditions. The schools with instructional time shortages must offer the number of days and/or minutes they were short, in addition to the number of days and minutes required by statute, for two consecutive school years.

The SCUSD and Sacramento City Teachers Association (SCTA) have reached agreement on a proposal to add the additional days and instructional minutes to the 2024-25 and 2025-26 school years, as required by statute.

A successful SBE waiver of the instructional time penalty will ensure that the funds that would otherwise be used to pay for the penalty will instead be used to improve student achievement by providing additional meaningful instruction to supplement students' learning, engagement, and socialization.

The SCUSD governing board must approve the waiver request in order to be submitted to the SBE.

Financial Considerations : The inclusion of these eight (8) added instructional days will be to meet the application requirements for the State Board of Education, in order to avoid an instructional day and time penalty.
