Public Comment:

Taylor Kayatta thanked staff for their presentation, and wanted the Superintendent and Board to know how powerful of a plan this is. Taylor Kayatta shared that the two staff that presented were amazing and have really taken into account what the community wants and needs are.

Terrence Gladney shared that he feels that there was an opportunity missed to intersect, but when we are planning our meetings, we no longer have ADHOC committee at the Board level. We are not effectively planning these meetings, so these people can be in the same space to bounce ideas and thoughts off of each other. We should be asking the questions that were presented just as diligently regardless of the subgroup or the students that are being reflected and presented in these presentations. If we do that, he feels that we can accelerate our path to success.

Board Comment:

Member Villa wanted to share that Phase II is doing the work and asking site leaders which people have asked about their input to be heard, and staff are taking the time to do that work, and Member Villa wants to make sure that we are uplifting that in this work. Member Villa thanked staff for continuing the good work and collaborating with site leaders and the community.

Member Rhodes thanked staff for their work.

Member Phillips wanted to clarify if we are looking at the interplay between our significant disproportionately and racism in our District. Member Phillips wants to make sure the community knows when we are sharing out, why we are really trying to make this change.

Member Garcia says there seems to be alignment with the field and the central office, and that is a really important thing to lift up, because it is important in moving the work forward.
