

Attention: Risk Management, Facilities, Maintenance & Operations

Safety Bulletin - Prepare Your Campus for Winter October 2024

SIA districts have experienced large storm -related losses that could have been avoided with a little preventative maintenance. To reduce loss, we recommend the following:

- x Check roofs:
 - o Check for evidence of leaks.
 - o Look for standing water, bubbles, or tears and cracks in roof covers.
 - o Check parapet walls with your hands for bounce back. Walls should be solid, not spongy .
 - o &KHFN IRU JDSV RU EURNHQ URRI 5DVKLQJ
 - o Clear debris on roofs and in gutters and downspouts.
 - o Check gutters and downspouts for leaks and ensure they are secure to the building.
 - o &RQVLGHU D IUHVK FRDW RI SDLQW IRU ZHDWKHU SURR4QJ KI
 - o Have a plan to respond to roof leaks
 - f Stock any necessary repair materials.
 - f 5HYLHZ WDVNV DQG UHVSQRVLELOLWLHV ZLWK VWD•
- x Visually check all storm drains and pipes for debris . Leaves, garbage, and other materials
